Professional Summary

Frontend Developer skilled in building responsive and interactive web applications using React.js, JavaScript, and Tailwind CSS. Experienced in creating reusable components, optimizing performance, and implementing modern UI/UX principles. Proficient in REST API integration and efficient state management in dynamic applications. Solved 170+ DSA problems, showcasing strong problem-solving and analytical skills. Passionate about building intuitive user interfaces and delivering seamless digital experiences.

Projects

[Portfolio Website \(GitHub API Integration\)](#) – Oct 2024 – Present

- Built a personal portfolio using React.js and Tailwind CSS.
- Implemented routing with React Router and showcased skills using the GitHub API.
- Designed responsive UI with reusable components; deployed on Netlify.
- Features: Form for future login/signup, Redux integration, and enhanced UI using react-icons.

[Content Saver Web App \(Note-taking Tool\)](#) – May 2025 – Present

- Built a responsive note-taking app using React.js with localStorage for data persistence.
- Implemented dynamic CRUD operations with form validation using react-hook-form.
- Integrated Sonner for user-friendly toast notifications.
- Planned future enhancement: backend integration with database for persistent storage.
